PROFILE SUMMARY

Pursuing Bachelor of Engineering Degree in Computer Science with strong fundamentals in programming and software development. Experienced in creating practical projects using modern tools and technologies. I am highly motivated to apply my skills and perform exceptionally well in this internship.

SKILLS

- **Technical:** Basic App Development (Flask), OpenCV, YoloV8, MySQL, Python, Java, ReactJS
- **Soft Skills:** Teamwork, Communication, Problem-Solving, Leadership, Creativity
- **Languages:** Tamil, English, Kannada

EDUCATION

- B.E. CSE – Easwari Engineering College (2024–2028) | CGPA: 8.1
- Class 12 – Omega International School (CBSE) | 85.8%
- Class 10 – Omega International School (CBSE) | 67.6%

MINI PROJECTS

Movie Ticket Booking System:

Movie Ticket Booking System is a Java Swing-based desktop application that enables users to book movie tickets with real-time seat selection and secure payments. It features user authentication, booking history, and an admin dashboard for managing movies, showtimes, users, and bookings. SQLite database integration ensures persistent storage and efficient booking management.

Tech: Java, Java Swing (GUI), JDBC, SQLite Database, MVC-style Architecture, Event-driven Programming.

Fire Detection System:

Fire Detection System is a project that uses a deep learning-based computer vision model to detect fire and smoke from images, videos, and live webcam feeds. Trained using YOLOv8, the system accurately identifies fire incidents in real time and highlights them with bounding boxes, enabling early detection and faster emergency response.

Tech: Python, YOLOv8, OpenCV, Streamlit, Deep Learning, Computer Vision.

CERTIFICATIONS

- **NPTEL (IIT):** Industrial IoT (**Elite**), Human-Computer Interactions (**Elite**),
- MongoDB Basics – MongoDB University
- Networking Basics and Python Essentials – Cisco NetAcad
- Core Java Programming Revisited - Infosys Springboard
- Career Essentials in Generative AI by Microsoft and LinkedIn - LinkedIn Learning
- Introduction to Generative AI Studio - Google Cloud

ACHIEVEMENTS

- My team OptiFlow won theme-based prize in the Transportation & Logistics track at CMR HACKFEST 3.0, Hyderabad, representing Easwari Engineering College.
- Participated in the PINNACLE'25 held at our college as part of a team, showcasing problem-solving skills and teamwork. Our team secured first prize in codezilla event conducted by the Department of Information Technology of Easwari Engineering College.
- Participated in PRAZYOTEAV'26 held at our college as part of a team, showcasing innovation, technical skills, and teamwork. Our team secured First Prize in the Project Arena event conducted by the Institution of Electronics and Telecommunication Engineers Student Forum (IETE ISF) in association with the Department of Electronics and Communication Engineering, Easwari Engineering College.
